VICTORY LOAN FLYER

LIEUT. H. W. WEBB CENTRAL
FIGURE IN AERIAL CIRCUS
TO OPEN LOAN CAMPAIGN

Mrs. H. W. Webb of 309 West Col-
orado street, this city, is in receipt
of a Seattle paper describing an
aerial circus with which the Victory
Loan campaign was ushered in there
and pictures of the daring aviators,
seventeen in number, among whom
was Lieut. H. W. Webb, who has
specialized in acrobatics with his lit-
tle Spad machine and is regarded as
one of the most dare-devil flyers in
the service.

The municipal golf links on Bea-
con Hill were selected as the flying
field and auto dealers of the city un-
dertook the responsibility of moving
the circus equipment to the field for
the one-day event. During their stay
the aviators were the guests of the
College Club.

The program began at one o'clock
when five Curtiss planes flew in
bombing formation, one machine car-
rying a photographer who took pic-
tures of the city from the air. In
each of the others a prominent citi-
zen was carried as a passenger. From
these planes the city was bombed
with Victory Loan literature and
from them also dropped the plates
used by the photographer with the
latest type of message-carrying para-
chutes which were observed, followed
and retrieved by motorcycle messen-
gers who took the plates to headquar-
ters to be developed.

In a few moments the observation
planes were attacked by German Fok-
kers which were captured in the war,
and two Spads manned by Lieutenant
Webb and by Lieutenant Wolfe
sailed into the fight to reinforce the
fighting planes and drive off the Hun
planes, demonstrating the manner in
which such battles had taken place
many times during the war. Follow-
ing the battle Lieutenant Webb and
Wolfe gave an exhibition of daring
(Continued on Page 2)

LUTHERAN CONVENTION

SUCCESSFUL SERIES OF MEET-
INGS CLOSE AT NOON
TODAY

The Spring Convention of the
Lutheran Churches of Southern Cal-
ifornia of the California Synod, is
progressing at a splendid pace, in the
Lutheran Church, corner Harvard
and Maryland, this city. There is a
fine representation of ministers and
laymen from over all this end of the
state. The sessions began night be-
fore last with a most excellent ad-
dress on the subject, "Our Opportu-
nities," by Rev. J. E. Hoick, of St.
Paul's Lutheran Church of Los An-
geles. The morning and afternoon
sessions of yesterday were replete
with valuable papers prepared and
presented in a scholarly manner on
"How the Lutheran Church Answers
the World's Needs in the Light of the
World War," "Our Pacific Coast Un-
churched Lutherans," "What Are
Ministerial Courtesies?" "Lutheran-
ism and Modern Heresies," "Is Sun-
day God's True Sabbath?" "Our
Lutheran Church in Europe Today,"
"Lutheranism and the Atonement,"
"The Need Today of Preaching the
Word of God in Its Purity."

The three devotional hours were
given to the subject of "Three Cir-
cles of God's Love," the Outer Circle
—The World," the Middle Circle—
The Church," the Inner Circle—
"Me." These proved very helpful
and inspiring addresses.

One of the most lively addresses
was given by the Rev. Hanson of Los
Angeles on "Our Lutheran Church in
Europe Today." Summing up the
many good things he said we find that
in devastated Europe, the countries
involved in the great war, there are
(Continued on Page 2)

ON THE WAY TO HUMBOLDT COUNTY

John W. Railsback and family who
formerly lived at 517 West Elk Ave.
are now on the way to Humboldt to
locate a "soldier's claim" of 160
acres in the timberland of that far
north county. They are driving
through in an auto traded for before
they left. The equity in their home on
Elk avenue was sold to Mr. Mc-
Clellan of Eagle Rock, who now occu-
pies it. He is building a garage on
the vacant lot just west of the
house, and will build a residence
thereon this fall or next spring.

REALTY TRANSFERS

C. H. Henry, member of the Board
of Trustees, and also a real estate op-
erator, like others of his line of busi-
ness has put through several sales re-
cently, among the number the follow-
ing:

To L. W. Chobe, City Building In-
spector, property at 318 West Col-
orado street, belonging to Mr. Seeley
of Hollywood.

To John Verdugo, property at 711
South Glendale Ave., for O. W. Tarr.
For Mrs. McElroy of East Maple
avenue, to Mr. Evans of Los Angeles.

COMPLETES NINTH PICTURE

Gale Henry, daughter of C. H.
Henry of this city, who now has her
own studio and is making a specialty
of producing two-reel comedies, has
just finished her ninth picture. Her
work, it is said, is beginning to at-
tract considerable attention in the
screen world and she is having no
difficulty in disposing of her produc-
tions which are beginning to return
excellent royalties. The state rights
on them have all been sold, her father
reports, and she is beginning to re-
ceive applications for foreign rights.

LECTURES POPULAR

DISEASE FROM FOOD—SHAT- TERED NERVES—RHEU- MATISM

Large audiences attend the Health
Lectures at the First Methodist
Church daily at 2:30 and 7:45. The
entire audience takes part in the
Health Culture Exercises. The practical
and scientific way in which
health problems are presented ap-
peals to all classes.

"Dangers of an Abnormal Food
Supply" will be the subject of J. C.
Elliott's lecture in the Methodist
Church tonight. The subject Thursday,
7:45, will be "Cause and Cure
of Rheumatism." Admission is free
to both men and women to the entire
course of lectures. Scientific
breathing was discussed last night;
at the close of the lecture a number
of persons were placed on the plat-
form and a demonstration of develop-
ing chest expansion and lung capaci-
ty was given.

His chief errand to the "Angel
City," however, was to take posses-
sion of five head of valuable cattle
purchased by him some time ago in
Washington and left in Los Angeles
with the Burr Creamery Company
until he should be prepared to re-
ceive them. Mr. Peck has an 80-acre
ranch about six miles from Brawley
in the Imperial Valley on which he
has a herd of sixty cows, twenty-five
of which are highly-bred and regis-
tered Holsteins, the rest high-grade
stock.

Of the five head he is now taking
to the ranch one cow, "Jessie Henger-
veld Johanna," cost him \$1500 and
has a record of 27.83 pounds of but-
ter in seven days and 597.10 pounds
of milk. She is now giving 95 pounds
of milk a day and like all such heavy

INTO EFFECT TOMORROW, MAY 1. EVERY CITIZEN
OF GLENDALE COMMUNITY INVITED TO BE PRE-
SENT.

C. D. LUSBY, Secretary.

COMPROMISE EFFECTED WITH JAPAN

POSSIBILITY THAT ITALY WILL COMPROMISE ADRIATIC CLAIMS IF GIVEN CONTROL OF SYRIA

(Special Service to Glendale Evening News)

Paris, April 30.—The temporary settlement of the Japanese ter-
ritorial claims was announced today. The details of the agreement
were not made public, but it was understood a compromise had been
reached whereby Japan retains temporarily valuable rights in the
Shantung Peninsula and final possession of the peninsula will be
determined after the peace treaty is signed.

Reports from Italy today are disquieting. It is understood that
the conference of American Ambassador Page with Premier Or-
lando was not entirely satisfactory.

An Italian demonstration is reported in Trieste, where a crowd
demanded that the American flag be removed from a Y. M. C. A.
building.

Italian press headquarters here said they were advised that Italy
will decide before night whether to return her delegates to the
peace conference. Reports were circulated that if the delegates do
return, former Premier Luzzati will head the delegation, but the
press bureau said it appeared certain that Orlando will retain the
head place as peace leader.

Significance is attached to the fact that Italian representatives
have been sounding forth opinions as to whether the United States
would agree to give Italy control in Syria if she would compromise
her Adriatic plans.

MAYOR WOODMAN DENIES IN TOTO

INDICATES THAT STORY TOLD BY KARR AND OTHER WITNESSES IS FABRICATION

(Special Service to Glendale Evening News)

Los Angeles, April 30.—Mayor Woodman today flatly and com-
pletely denied the entire story told by Horace Karr and other wit-
nesses, by which District Attorney Woolwine is attempting to con-
vict him of agreeing to accept a bribe.

The mayor took the witness stand early in today's session of
his trial. Calmly, but a bit contemptuously at times, he denied
everything in detail.

He told the jury he not only did not agree to accept money from
the vice interests in return for protection, but had never been ap-
proached by Horace Karr or any one else with such a scheme. Fur-
thermore, he said, "such a thing would be intolerable," and added
that he was a man who never drank, never entered a saloon except
to investigate it, never gambled and never as much as played a
game of pool.

Referring to the police department, he said he devoted only a
very small part of his time to police affairs, and that he never told
Karr or any one else that "Chief Butler is our chief stumbling
block." He said he had appointed Butler chief of police because
Butler was not subject to political influence, and if the chief had
been "a stumbling block," he could have removed him.

Mayor Woodman was still on the stand when court adjourned
at noon.

WHEAT RELEASED TO CHECK PROFITEERING

(Special Service to Glendale Evening News)

Milwaukee, April 30.—Julius Barnes, head of the United States
Grain Corporation, today ordered released 160,000 bushels of wheat
for export trade. His action followed his recent threat to release
such grain to end speculation and profiteering. Barnes believes he
can release sufficient wheat here to smash prices and end profiteering.

VICTORY LOAN LAGS

(Special Service to Glendale Evening News)

Washington, April 30.—It was officially announced today that
Victory Loan Bond sales have now passed the billion dollar mark.
This is less than a quarter of the total amount asked. The cam-
paign is one-half over.

STOCK MARKET REACTION

(Special Service to Glendale Evening News)

New York, April 30.—The heaviest reaction the New York
Stock Market has experienced during the last ten days of unusual
activity occurred during the second hour of this morning's session.
The decline in leading issues averaged three points.

VISIT "MARBLEHEAD"

L. T. ROWLEY AND FAMILY MO-
TOR TO SAN DIEGO TO WEL-
COME EUSTACE ROWLEY

April 28, 1919.

The Glendale News,
Glendale, California.

To the Editor:

Another itinerant, calling himself an evangelist, attacking those who do not believe as he believes and attacking them regardless of the facts as to their lives and conduct, has come and gone in Glendale, leaving behind him much astonishment that Christian people will tolerate utterances such as came from his lips while occupying a pulpit in a church dedicated to God and good works. This astonishment is to a degree increased by the fact that the Glendale News admitted to its columns an article contributed by, or in behalf of this so-called evangelist, under the caption "Excerpts from Expose of Christian Science by Dr. French E. Oliver."

Now an expose involves something that is discreditable. It is true the term often appears as a camouflage for an exposition—an elucidation of a subject. Such an elucidation is truthful and free from unmerited criticism. To show Mr. Oliver's state of thought I will state that in the Presbyterian Church of your city, in connection with that part of his address which you printed, he said that Christian Science stood for filthy citizenship; that Christian Scientists despised government; that Christian Science Churches were filled with adulterers, thieves, arsonists, murderers and heathen; that Christian Scientists would abolish marriage if they dared, etc., etc.

These are not pretty words nor are they expressions such as one naturally associates with a doctor of divinity standing in a church pulpit. Mr. Oliver could not possibly have known anything about the members and attendants of the Christian Science Church in Glendale, and certainly the membership of the church in which he preached would have given him no such impression of their friends and neighbors. Nor would you have admitted the contributed article to your columns had you known of this wild harangue and its vilification of a portion of your citizenship, many of whom are your personal friends and acquaintances and valued as such.

Probably the word "expose" escaped your attention because the article was offered to you by one you supposed to be a minister of Christ and it came to you in the name of a (Continued on Page 4)

ROOT HOME LEASED

Now that Mrs. Darwin Root has definitely accepted the appointment to Japan as director of the World Prohibition movement there, she and Mr. Root have taken advantage of an opportunity to lease their property on Verdugo Road to an acquaintance, a Mr. Briggs of the Cadillac Agency in Los Angeles. He has rented it for a year and will take possession some time in May. Mr. and Mrs. Root will then be guests of Rev. and Mrs. A. B. Smart until Mrs. Root goes. During the absence of Mrs. Root, her ward, Miss Frances Gauntlett, will make her home with the Smarts.

ORATORICAL CONTEST

THEMES SUGGEST RECONSTRUC- TION, AMERICANIZATION PROBLEMS

Excitements follow rapidly at Glendale High. The echoes of the vandale will hardly be stilled before the annual "Oratorical," the big event of the year will be on. It is set for Friday and the orators are already primed and ready for the contest.

According to the lots drawn class representatives will speak in the following order:

1st. Philip Wernette, Senior, theme, "Americans All."

2d. William Farmer, Sophomore, theme, "Ferdinand Foch."

3d. Paul Hutchinson, Freshman, theme, "A New Military Era."

4th. John Worley, Junior, theme, "America the Crucible."

Excellent judges have been secured in Superior Judge Paul J. McCormick; Prof. Paul C. Root, of Department of Economics, Occidental; Prof. H. F. Allen, Dept. of English, L. A. State Normal School.

The manuscripts of the orators are now in the hands of the judges who will bestow half of their determining marks on the subject matter of the orations, the balance of credits being reserved for delivery.

The merits of the class booths will be determined by another set of judges not yet selected though several names are under consideration. Persons not residents of Glendale are preferred for obvious reasons and in the scale of points 60 per cent. will be applied to booth and 40 per cent.

(Continued on Page 4)

KEEP DOLLAR AT PAR

GLENDALE SHOULD SPEED UP IN VICTORY LOAN PURCHASES AND SUSTAIN CITY'S RECORD

While the laborers are few and the harvest of bond sales is slow in ripening, the Victory Loan campaign is nevertheless going steadily forward and while not reaching as yet the proportions desired by the chairmen, it is as creditable a showing as other cities have made to date. What Glendale citizens have done in the past seems to be a guarantee of their patriotism and that they will make good this time even if they are slow in sending in subscriptions. It should be remembered however that time is passing and those who intend to buy should come forward and spare the committee congestion of work at the close of the campaign.

Glendale bankers say without doubt this fifth liberty loan is the best investment, safety considered, that has ever been offered in this country and its like will not soon be seen again because nothing save such a war as we have just witnessed would have made necessary such a bond offer. We are all hoping that the League of Nations will guarantee the world against war in the future and should the hope be realized there will be no occasion for such bond issues on the part of the United States. TIGERS WIN

The game at Intermediate today was between Angels and Tigers. Gordon Richardson pitched for Tigers, Vernon Paul for Angels. In the second inning there was a tie and in the fourth George Morrison made a splendid three-bagger. Four innings were played and the final score was 4 to 3 in favor of Tigers. Messrs. Blanford and Boncampa umpired.

MATINEE PARTY

MISS EVANGELINE HUNTLEY AND WEDDING ATTENDANTS ENTERTAINED BY MISS JUSTEMA

Social affairs in compliment to Miss Evangeline Huntley, whose marriage to Seymour Smith is set for June 3d, are the order of the day among her numerous girl friends. Last Saturday she was the guest of honor at a theatre party given by Miss Gladys Justema who entertained at the Orpheum where the program was exceptionally fine and included Theodore Kosloff's Russian Ballet, reputed to be the most artistic dancing in the world, an art which may be lost to Russia now that the imperial regime which supported it has been overthrown. Following the matinee the party was entertained by the young hostess at the Pig 'n' Whistle. The guest list included close relatives of Miss Huntley and her fiance and young ladies who are to be included in the bridal party in which Miss Justema will be maid of honor. The ladies entertained were: Misses Evangeline Huntley, Waunita Emery, Kathleen Dodge, Carrie Stone, Esther Schremp, Dorothy Hobbs and Mesdames Noble Ripley, Andrew Stephenson, J. G. Huntley and J. Herter Smith.

DISCOUNTS STRIKE THREAT

J. C. Sherer, who was at one time a telegraph operator and who has always been sufficiently interested in the avocation to keep in tolerably close touch with it, discounts the reports telegraphed from Chicago that the nation's telegraphers will vote 20 to one for a general strike which will tie up the lines. He declares that the strike is proposed by the Commercial Telegraphers' Union and is not likely to be joined by the operatives of the Western Union. In Los Angeles the majority of operatives do not belong to the Commercial Union and a few months ago when the operatives of that organization planned a strike a very large number of the employees of the Western Union refused to have anything to do with it. The complaint of the Commercial Union is that Postmaster General Burleson has not kept the promises he made when they were on the verge of a strike three months ago and they are very much dissatisfied.

The Postal Telegraph Company, Mr. Sherer admits, has considerable cause for dissatisfaction in the removal of its head, Clarence Mackay, by Burleson, and for that reason its employees are more liable to strike than those of the Western Union. He points out that operatives today are getting at least 15 per cent. higher wages than previous to the war. Those who previous to that time were getting \$90 to \$110 per month are now receiving \$100 to \$125. But he also points out some of the reasons for complaints on the part of patrons of the company resulting from the mistakes in receiving and sending messages made by the cheap, unskilled help employed, and the many hands through which messages are now relayed instead of coming direct from sender to receiver.

RECEPTION FOR WILL MARPLE

A reception and May Party will take place Thursday evening at the Central Methodist Church at which Will Marple, recently returned from overseas will be the guest of honor. He has always been exceedingly popular with the young people of the church, a leader in their activities and director of the choir when here, and a fine program and other entertainment is being planned for the occasion.

GUY BENNETT RECUPERATING

Guy Bennett, a member of the debating department and president of the Junior class of Glendale High was a welcome visitor at the school Tuesday. Some time ago his knee was injured in a basketball game in the gymnasium and he has since been confined to his home. While not able to resume his school work he was equal to a visit on crutches to boost his class in the Oratorical. He has written a class song which will be heard Friday night.

LUTHERAN CONVENTION

(Continued from Page 1) 38 millions of Protestant Lutherans, upon whom has fallen largely the burden of the great war scourge, because of the blindness of the military and civil leaders, who provoked the great struggle among the various states. These helpless people today are left to the mercy of anarchy, socialism and Bolshevism. Lutheran churches that were formerly supported by state funds are now sent adrift to self-support, which works until hardships on that phase of Protestantism. The present Russian Government is so careful to sow the seeds of infidelity in her schools that catechisms are prepared and forced upon the scholars and students in her schools and universities. That form of government is determined the Bible shall be stamped out. That being true the blackest night in Russian history has not yet been written, but it is coming, unless stayed by the hand of Almighty God.

The address last night by Dr. Weaver of Riverside, on “The Great Lutheran Merger of Our United Lutheran Church,” was full of good things, setting forth that most en-

DEFY PEOPLE'S WILL

FORCES OF LIQUOR AND LAW-LESSNESS SEEK TO DEFEAT PROHIBITION

In some of Glendale's churches yesterday the following self-explanatory letter was read:

In spite of the fact that the Eighteenth Amendment to the Constitution of the United States has been submitted by Congress in the way prescribed in the Constitution for its amending, and in spite of the fact that forty-five state legislatures have ratified it, thus making the prohibition of the liquor traffic a part of the fundamental law, the lawless liquor interests are making every effort possible to nullify this provision by urging those who were formerly against prohibition to defy the Federal Constitution, the action of Congress and the action of the Legislatures of the several states.

The liquor interests in their effort to spread the seeds of lawlessness, anarchy and bolshevism, are especially urging enlisted men in the army and navy to sign cards and petitions recording themselves against national prohibition. These cards, circulated country-wide, read: “I, the undersigned, protest against the methods by which the Prohibition Amendment has been acted upon, and record myself as opposed to National Prohibition.”

Every man enlisted in the military service of the United States has taken an oath to uphold the Constitution. The liquor interests of the country are now endeavoring, by means of these cards and petitions, to get soldiers and sailors to help the brewers and liquor dealers defy the Constitution and trample in the dust the properly adopted laws for the enforcement of prohibition.

To offset this move, the Anti-Saloon League of America through its branch, the Soldiers and Sailors Council for National Prohibition, is offering a counter petition calling for

(Continued on Page 4)

thusiastic gathering in the City of New York last November of over 500 delegates from various parts of our country, when the three largest Lutheran bodies in America merged into one. It was a memorable occasion. It brought into one about a million members, 3000 pastors and 5000 churches, a mighty Protestant force to help America steer straight her great ship of state, and maintain unswayed the doctrines of the Holy Word of God, holding out salvation and hope to a world lost in sin.

The closing session this morning considered “The Running of a Church, Financially,” in a symposium, “The Three Greatest Needs of the Church Today,” “Parochial Reports,” in a Round Table, and “Lutheran Jewish Mission Work on the Pacific Coast,” by Dr. Heimann, for 25 years a missionary to the Jews in Chicago.

The following were elected officers of Conference for the following year: President, Rev. R. W. Mottern; secretary, Rev. Dr. Wm. F. Poat; treasurer, Mr. J. C. Stump of Los Angeles.

While the men were holding their convention in the Lutheran Church, the representatives of the various Missionary Societies of the Conference, the women, held their convention in the Christian Church during all of yesterday. All the various phases of missionary work and its operations were presented and discussed together with “The Summer School of Missions,” “What Changes Has the Great Merger Made in the Organization of the Missionary Societies” and “The Foreign Mission Fields of the United Lutheran Church of America.” This part of the convention was very fruitful.

At noon today the convention closed with luncheon in the Masonic Temple, with the satisfaction that this has been the largest in attendance, the most successful and helpful ever. Fitting resolutions of appreciation for the hospitality, the special attention to the comfort of the Conference and entertainment provided by the local congregation, were adopted. Thus the Conference expressed its heartfelt gratitude, with a desire to return to Glendale at some future time.

Personals

Mr. and Mrs. Henry Johnston of 111 North Everett street are motorizing to Long Beach today.

Mr. and Mrs. Wallace Tupper and Mr. and Mrs. Herman Nelson spent Sunday at the beach and enjoyed a trip on their boat "Lotta." They did not attempt to fish.

Mrs. H. L. Perkins of San Gabriel was in the city yesterday transacting business. The family lived in Glendale for several years, moving away toward the close of last year.

All the art work in this year's "Stylus" is to be done by students of Glendale High. Members of the Art classes are hard at work trying to make it the best "Stylus" ever put out.

The regular meeting of the Colorado P.T.A. will be held in the school building, Thursday, May 1st, at 3:15. Speakers of the afternoon will be Rev. C. H. Scott and Richardson D. White. A number of vocal and instrumental solos are on the program. Mothers come and help some room win the cake.

Rev. Jesse W. Ball, pastor of St. Mark's Lutheran Church of Los Angeles, and Rev. Snyder, also of Los Angeles, who have been attending the Lutheran Conference which has been in session this week in Glendale, were guests during their stay of Rev. and Mrs. E. H. Williford. Mr. Ball and Mr. Williford were fellow students at the University of Nebraska and welcomed an opportunity to renew their acquaintance.

Rev. C. A. Cole arrived at home at 1 this morning from San Diego. He and his parents found the cousin they went to see at Camp Kearny getting along well, but chafing over the refusal of the hospital authorities to allow him to go home. Their machine balked just after they entered the Los Angeles city limits at 6 p.m. and could not be started again, though Rev. Cole worked with it several hours.

W. L. Andrews of Pioneer Drive, who is the local representative of the California Avocado Club, states that its annual meeting will be held Friday and Saturday, May 9th and 10th, at the Maryland Hotel in Pasadena, when visitors as well as members will be welcomed and any exhibits of fruit which they may bring as there will be a room reserved for exhibition purposes. Dr. Lester Keller of Yorba Linda is chairman of exhibits. Sessions will open at 10 a.m. and 2 p.m.

Miss Bessie Field of Glendale High has recently been using the slides to be secured from the Department of Visual Education, Los Angeles, to illustrate some of the lessons of her English and Spanish classes. Last week she used a set of 28 picturing the west coast of Mexico. This week she will use a set of thirty-one picturing Stratford-on-Avon and the Shakespeare environment. They make a pleasant break in the monotony of ordinary class work.

Tomorrow, Thursday afternoon, Mrs. J. H. Braly, regent of the Richard Gridley Chapter of the Daughters of the American Revolution, will entertain the organization at her home on North Brand boulevard. Mrs. Powell, a fine speaker from Brooklyn, N. Y., will make an address on "Americanization, the Call of the Hour." Each member will have the privilege of bringing a guest and it is hoped that the full membership will come out to enjoy this fine program. In addition, all who may wish to attend are cordially invited.

BIRTHDAY SURPRISE

Mrs. J. C. Waite of 407 South Central avenue was happily surprised by friends and neighbors who called at her home Saturday evening to celebrate her birthday. An exceedingly pleasant evening over the card tables was followed by a fine lunch. Those present were: Messrs. and Mesdames F. Bearn, C. O. Klinke, E. Halscheid, C. A. Rudel, B. Spafford, Mrs. J. Roman, Mr. and Mrs. Meek, Mrs. Montgomery and several children of guests.

REQUEST FOR ROSES

Will all members of the Tuesday Afternoon Club having roses to spare be kind enough to send same to the Masonic Temple on Brand boulevard Thursday morning before 10:30 o'clock? They are needed for decorative purposes for the Rose Tea to be given by the Club Thursday afternoon, May 1st.

CHAIRMAN COMMITTEE ON DECORATION.

ANOTHER BOY SOON TO BE HOME

Mr. and Mrs. J. W. Dutton and daughter Evelyn of 528 N. Maryland are rejoicing at the return from overseas of the son and brother Laurence, who has been away for nearly 20 months. He was with them for a few hours yesterday, then went on to San Francisco, where he will be discharged at the Presidio in a few days. Laurence is with Co. C, 316th Engineers, known as "The Fighting Engineers," from the fact that they were called into the ranks in one of the Argonne fights and nobly they did their part. Laurence went over the top three times with his company.

JOHN BENJAMIN McATEE

After a long and severe illness from his late beautiful home on East Acacia street, Glendale, Brother John Benjamin McAtee departed this life on April 27, 1919.

He was born at Tygh Valley, Oregon, April 14, 1876.

He was married to his now bereaved companion, Miss Anna Heisler, of Dufur, Oregon, in 1898. To them was born one son, J. Laurence McAtee, who grew to a strong Christian character in his native state.

From health considerations the family came to Glendale and this fair Southland something more than a year ago. Health did not return and the call came to cross the mystic river and our brother is not here for God has taken him.

He was a devoted member of the Order of Odd Fellows. He had filled all the higher offices in the Lodge. He was a firm believer in our holy Christianity. He was especially interested in the music of the church, and had served as director in the choir of the Methodist Church of his home town. He has gone to his reward. To us it seems sad that he should have gone so soon. Nevertheless we say, "Not our will but His be done." His worthy example we will endeavor to imitate. He did not live in vain.

C. H. NORTON.

ADDITIONAL TAXES

The internal revenue tax on luxuries goes into effect tomorrow. It includes among the said luxuries ice cream, soda water, candy, druggists' sundries, clothing, women's hats and scores of other articles. It is to pay for the war so we will none of us kick.

MEETING OF PARISH WOMEN

A meeting of ladies of the Holy Family Catholic Church will be held at the Masonic Temple this (Wednesday) evening at 8 o'clock to hear the report of the church building committee. There will be no charge and no collection will be taken. It will be simply a business conference.

The Ladies' Aid of the M. E. Church will serve a 25-cent luncheon at the noon hour in social hall of the church, Thursday, to which the patronage of the public would be appreciated.

CHRISTIAN SCIENTIST MAKES
REPLY

(Continued from Page One)

church of Christ; for you would not knowingly allow your columns to be used to deliberately discredit anyone. You will recall the article closed with a quotation from one of Paul's letters to the Church at Corinth: "Let us cleanse ourselves from all filthiness of the flesh and spirit." Had Mr. Oliver taken Paul's advice, his cleansed condition would have prevented this calumny and vituperation and he would be able thereafter to live up to the title of evangelist. This word comes into our language from two Greek words meaning "A messenger of good."

Misrepresentation and untruths are no part of the message given to an evangelist. An evangelist knows that Christian Science does not deny but emphasizes "the authority of Jesus Christ and the integrity of the Holy Scriptures."

Christian Science does this so successfully that it speaks to the sick and sinning with "authority," as did Jesus, and heals them; making available here and now the promises of the Scriptures. The integrity of the Bible is the underlying and supporting power in Christian Science. Mrs. Eddy, the Discoverer and Founder of Christian Science, in her book Science and Health with Key to the Scriptures, says: "Christian Science, understood, coincides with the Scriptures, and sustains logically and demonstratively every point it presents. Otherwise it would not be Science, and could not present its proofs. Christian Science is neither made up of contradictory aphorisms nor of the inventions of those who scoff at God. It presents the calm and clear verdict of Truth against error, uttered and illustrated by the prophets, by Jesus, by his apostles, as is recorded throughout the Scriptures."

(Page 358.)

The conception entertained by Mr. Oliver of a personal devil and a personal God (using the word personal in the sense that he uses it), coequal in power and presence, is not the concept of Christian Science. The Christian Science God is Spirit, wholly good, all-loving, omnipotent, omnipresent, absolutely supreme; sharing His power with no other god; much less with a devil. This infinite Being created all, including man, and His creation is wholly spiritual. This spiritual creation becomes apparent exactly in proportion as mankind gains the right concept of God. This is the teaching of Jesus, of Paul, and of Christian Science.

Christian Science does not deny the divinity of Christ Jesus; it does not deny prayer. In the text book of Christian Science, referred to above, an entire chapter is devoted to each of these subjects. The office, character, nature and person of Jesus the Christ is made clear and freed from all mysticism. The power and availability of prayer is made apparent and applicable. Christian Science does not deny sin; it exposes it in all its hideousness and shows the sinner how to abandon his wrong thinking by substituting for it right thinking and its consequent manifestation in right actions. Those who wish to know the truth as to the Christian Science teaching regarding sin are asked to attend a Christian Science Church next Sunday where the subject of the lesson-sermon will be "Everlasting Punishment."

Included in this service there will be read the following paragraph from page 339 of Science and Health: "A sinner can receive no encouragement from the fact that Science demonstrates the unreality of evil, for the sinner would make a reality of sin,—would make that real which is unreal, and thus heap up wrath against the day of wrath." He is joining a conspiracy against himself,—against his own awakening to the awful unreality by which he has been deceived. Only those who repent of sin and forsake the unreal, can fully understand the unreality of evil."

(Signed) HENRY VAN ARSDALE.

KEEP DOLLAR AT PAR

(Continued from Page One)

The liberty bonds, particularly those of the fifth loan, which pay 4% per cent. interest will undoubtedly, say the financiers, be selling way above par in a short time. They make ideal collateral security, as are good as the gold coin and so far from representing sacrifice they are a shrewd investment. At the same time they represent money which must be forthcoming if the government is to maintain its credit, keep the American dollar at par and make good on its obligations. The government of the United States is not a thing apart, it is the people, and anything which savors of repudiation is a reproach to the people. However, the government will meet its obligations whether the bonds are purchased or not, but if they are not sold, the deficiency will have to be made up in taxation and the money which we spend in that way will not come back in principal and interest as it does when we buy bonds.

The leaders in this drive, however, Mrs. Ralph Meeker, chairman of the Woman's Committee; Judge Lowe, chairman of the Men's Committee; Mr. Kirk, chairman of Publicity, and all the rest who are loyally seconding their efforts, have faith in Glendale and are sure that she will wake up and come in under the wire with a grand flourish as in the past.

The canvass did not begin until

THE MEMBERSHIP DRIVE

Tomorrow, Thursday, will be a day of considerable moment to the members of the Tuesday Afternoon Club because it will be the last day of the membership drive which will be celebrated with a Rose Tea in the afternoon at the Masonic Temple, when the new members will be properly welcomed. Each new member will receive with her year book a membership application blank and each is urged to help on the good work by herself securing and bringing to the tea a new member. This request is applicable to all members and blanks can be secured from Mrs. W. W. Ramsey, president; Mrs. C. E. Norton, Mrs. W. L. Andrews or Mrs. Mabel Rudy. The drive objective was set at one hundred new members but it now looks as though the campaigners would carry it over the top.

VALUABLE CATTLE

(Continued from Page One) producers has to be milked three times a day. This animal has been bred to "Carnation King Sylvia," known as the \$106,000-bull owned by the famous "Carnation Milk" stock farm. The dam of that bull has a record of 41 pounds of butter in seven days and 1005.8 pounds of milk in the same period. Her best day's record was 152.1 pounds or 19 gallons of milk.

A second very valuable cow in the lot is "Miss Pontiac Nudine of Springvale," who is what is called a twice thirty-pound cow. It means that she has made a record of over thirty pounds of butter in seven days twice. Her best record was 31 pounds of butter in seven days and 578.40 pounds of milk. In the lot are two heifers, one of which cost him \$825, the other \$600. They are well bred, but have made no record as yet. Both are from the Hollywood Farm in the State of Washington.

Mr. Peck is credited with having the finest Holstein herd in the Imperial Valley and is very enthusiastic over the possibilities of that country for dairying. While there have been losses from death by bloat of cattle which have been pastured on alfalfa in the winter when pasture is liable to the heavy dews that cause the bloat, it is now possible to carry insurance which protects farmers against such losses. Also, Mr. Peck says, the use of ensilage, which is becoming more and more popular to take the place of the fresh feed in winter, does away with the danger of bloat and so productive is the valley soil that farmers can make 40 tons of ensilage on the acre.

In this connection Mr. Peck offers proof that world-beating records are not necessarily a rich man's game. He says that the world's record for from one to thirty days, all ages and all breeds, has just been beaten by a Canadian Holstein cow which made 31.93 pounds of butter in seven days and 200.34 pounds of butter in thirty days. The owner of the cow was a young man of 23 who had been breeding but few years, who was comparatively poor, and who bought the cow from his father a few years ago for \$320. Other world record-beaters have been owned by millionaires. This young man took an agricultural college course and specialized in milk testing. He was thus able to keep an accurate record of the doings of his herd. He has also developed another cow with a record of 37 pounds in seven days.

Mr. Peck considers the dairy interest of more permanent value to the valley than cotton or wheat because it returns fertility to the soil instead of robbing it.

DEFY PEOPLE'S WILL

(Continued from Page Two) a support of our Constitution. It is the only way to effectively meet the opposition being advanced by the liquor interests and safeguard prohibition as well as other provisions of our Constitution.

Every service man you can get to sign a card in support of the Eighteenth Amendment is a step toward victory for law and order. We request, therefore, your assistance in this matter. We are pitting the organization of the church and moral forces against those of the liquor interests and the Council for National Prohibition. We are sending you cards for signatures and circulars setting forth the facts in brief. Please return these cards to the address as given, after you have secured as many signatures as possible. We would appreciate a prompt reply on the prospect in your field of endeavor as we have been handicapped by the enemy's start. Soldiers and Sailors Council for National Prohibition.

GEORGE S. DECKER, Secretary.

P. S.: Enlisted men should sign their military unit in addition to their address.

Cards can be had of the pastors of the Christian churches of the city and Sunday School superintendents for returned service men to sign. It is hoped that enough signatures will be secured to show these lawless men who seek to overturn the decree of forty-five sovereign states that the soldiers and sailors are still fighting the forces of evil. The dry forces were caught napping in this matter because they were not looking for such desperate and unprincipled action by the forces of evil.

last week Wednesday. Up to and including Monday night, sales reported totaled \$51,400.

The Pacific Telephone and Telegraph Co.

HEALTH LECTURES POPULAR

(Continued from Page 1) ty was given by which any individual may obtain a chest expansion of at least five inches which is imperative for health. The average is three.

Abnormal Food Supply

Mr. Elliott says: "The food supply of the body determines the health or disease, the life or death of the individual. Millions of our people are digging their graves with their teeth. All surplus food must decompose and decay in the stomach and the intestines. This produces poisons that are carried to the cell life of tissue, nerve, muscle and brain and poisons the cell life of the whole body. These poisons produce drowsiness, nausea, biliousness, nervous and sick headache, auto-intoxication, hardened arteries, kidney disease, torpid liver, acid stomach, heart disease and apoplexy. The lives of thousands of business and professional men and women go out like a flash from heart disease and apoplexy caused by the surplus food supply which has caused hardened arteries. Rheumatism and diabetes are also the product of the surplus food supply decomposing in the digestive tract.

Rheumatism

"Rheumatism is one of the painful diseases of the human body. It has many forms in its development yet it has but one cause and that is the accumulation of poisons in the body. These poisons may be developed from wrong combinations of food, from poisonous foods such as vinegar, the excessive use of salt, pepper and all condiments. It may be produced by surplus food, decayed teeth, or supurating tonsils. Diet and hot baths are the great cures for rheumatism. All these problems will be discussed."

ORATORICAL CONTEST

(Continued from Page One) to the procession, costumes, songs, yells and general ensemble.

Last year the war spirit dominated the contest both in orations and booths. It will be remembered there was a battleship, a tank, an airplane and an American eagle and with them the explosions of blank cartridges, torpedoes and other noise making devices were tolerated as a consistent accompaniment. But this is the era of peace and the pandemonium of the last oratorical will not be repeated though there will doubtless be plenty of noise made in yell, songs and applause.

An effort will also be made to avoid the crush of disappointed crowds seeking admittance. The school auditorium is not wholly adequate to the seating of the school so it is not expected many outsiders can find places. Tickets will not exceed the seating capacity and they will be on sale to students up to Thursday noon. Any tickets unsold at that time will be placed at Cornwall & Kelly's store for purchase by the general public and only ticket holders will be admitted to the auditorium Friday night.

Students held an enthusiastic assembly at the sixth period and adjourned to attend class meetings at which arrangements for processions and booths were discussed. The time

ANNOUNCEMENT
